

## Mini-Jack Green Layout and Game

This game will be played on Monday mornings starting at 10:00.

The game will be open to all club members.

The game set-up will be with the mat and jack preset at the distances as shown on the adjacent drawing. The green will be marked with chalk for the positions of the mat and the jack.

Teams will be setup similar to the regular drop-in lawn bowling, or possibly using the lolly sticks from the carpet bowling. If you feel that you are unable to do the walking up and back it will be ok to share, with one bowler bowling up and the other bowling in the return direction, with the same bowls.

When bowling away from the clubhouse, if the bowl goes beyond the far hog line it will be classed as dead and removed from play. If the jack is knocked beyond the far hog line it will be replaced on the original preset mark.

On the initial, or clubhouse, end, a bowl that goes in the ditch will be removed from play. If the jack falls in the ditch, it will be replaced on the original preset mark.
